BLOOD DRIVE

November
16th, 2023

8:30 AM -
1:30 PM

How Blood Donations Help Patients

There's no substitute for blood. When a patient receives blood, it was given in advance by a generous donor. Every day, blood donors help patients of all ages: accident and burn victims, heart surgery and organ transplant patients, and those battling cancer. In fact, every two seconds, someone in the U.S. needs blood.

- **Cancer Patients**
- **Trauma Patients**
- **Sickle Cell Patients**
- **Burn Patients**
- **Patients with Chronic Diseases**

Who Can Donate?

- **Blood donors must:**
 - Be in good health and feeling well
 - Be at least 17 years old (16 years old with parental consent in some states)
 - Weigh at least 110 pounds if over 18 years of age.
 - Have not given whole blood in the past 56 days or a Power Red donation in the last 112 days
